

Tenth Symposium Meteorological Observations and Instrumentation

Jan 11-16, 1998 Phoenix, AZ

Marvin L. Wesely Argonne National Laboratory

Cover Sampling of field instruments used to detect water vapor, liquid water and other quantities aloft

Ses 1 Atmospheric Sounding Systems and Sensors

Ses 2 Rawindsonde Winds and Water Vapor

Ses 3A Precipitation Sensors and Observations

Ses 3B Water Column and Profile Retrieval

Ses 4 Radiometry and Cloud Observations

Ses 5 Ground-Based Remote sensors

Ses 6 In Situ Sensors

Ses 7 Surface Observational Systems and Quality Control

Ses 8 Satellite Observations of Surface Conditions

Ses J2 Educational Initiatives in Meteorological Observations and
Instrumentation

Ses J3 Meteorological Observations for Air Quality

Ses J4 Advances in Upper-Air Observing Systems (GPS)
